

Adult Registration

Thank you for your willingness to help serve the young church by helping with Vacation Bible School at St. Louis Besancon Catholic Church July 17 through July 21. It is because of your gift of time and talent that we are able to organize and provide this faith-filled opportunity for our young people. In order to identify the leaders, we ask you to purchase a plain, orange tee shirt to wear for the week. An iron on logo will be given to you upon receiving your registration. If you have any further questions, please email Claire at stlouisvbs@gmail.com.

Please drop off completed forms in the parish office or to Claire Stuerzenberger by June 10.

Safe Environment Certified? Yes _____ No _____

* The Diocese of Fort Wayne-South Bend requires that all clergy, seminarians, and employees complete the Safe Environment Training Program regardless of their level of contact with children. All diocesan volunteers who will have regular contact with children or young people must complete the Safe Environment Training Program also. The program teaches adults how to create and maintain a safe environment in which all persons, especially children, can grow in faith. This training is meant to help protect children and also those adults who minister to them. **Please follow the link below to complete the Safe Environment Training.** www.diocesefwsb.org/Safe-Environment-Training-Adults
